MEMORANDUM FOR:

SUBJECT : Commendation

1. You are commended for your fine contributions to our intelligence support to senior US policy-makers in the days and weeks following the outbreak of the October Arab-Israeli War. The President and Secretary of State Kissinger have commented directly on the excellence of this support and its contribution to effective crisis management.

2. I know that the hours you devoted to this work were long ones and that round-the-clock operations imposed burdens on you. Nevertheless, your work reflected credit on you and on the Agency. It is very much appreciated.
